

CUSTOM DESIGNED SAFETY SHIELDS

*TELL US ABOUT YOUR SPACE AND WE WILL DESIGN A SYSTEM
TO FIT YOUR NEEDS*

Morse Industries is excited to supply Safety Shield Sneeze Guard Systems to provide a high quality affordable solution for businesses to maintain social distance as they continue to serve customers.

The Safety Shields are designed to help prevent the spread of disease in any place of commerce. This product is available in several styles, offering the user flexibility in providing the necessary protection for both staff and customers. Send us photos or drawings of the area and the team at Morse will design a custom system for your environment.

Since 1982 industry professionals have relied on Morse Industries for top quality railing, extrusion, fixture, shower, and other architectural hardware. Contact our knowledgeable customer service representatives to get expert advice and recommendations on the perfect solution for your needs.

POST AND CLAMP SAFETY SHIELDS

Both the Round and Square Post & Clamp Shields provide the ability to pass money and small objects below the infill. The posts on this shield are made of stainless steel which creates a high end appearance. The shields work with a variety of infill material, accommodating thicknesses from 1/4" to 3/8". Posts have 1 1/2" diameter. No fabrication is needed on the infill material for the clamps.

PARTITION POST SAFETY SHIELD

The Partition Post Shield not only provides the ability to pass money and small objects below the infill if needed, but can also be mounted with the infill is flush to the surface so no gap remains. The posts on this shield are made of high-quality extruded aluminum components. The shield works with a variety of infill material, accommodating a thickness of 1/4". No fabrication is needed on the infill material.

EDGE-SUPPORTED SAFETY SHIELD

The Edge-Supported Shield utilizes a U-Channel for support, and does not require vertical posts. This system provides a solid barrier with no gaps. Customizable lengths up to 20'. The aluminum channel works with a variety of infill materials and accommodates thicknesses from 3/8" to 1/2". Multiple finishes and claddings are available.

FREESTANDING COUNTERTOP SAFETY SHIELD

The Freestanding Countertop Safety Shield is easy to assemble with minimal hardware required. The shield is not mounted to the surface so is a movable and an ideal non permanent solution. The gap in the infill allows small items to be passed beneath, and is perfect for a variety of environments including offices, desks, and reception counters.
